Telos95[®]
TELOMERE HEALTH SUPPORT

Nobel Prize Winning Research Unlocks the Key Elements that Causes Cell Aging; Telomeres, an Important Piece of the Puzzle of Human Aging!

- ✓ CLINICALLY PROVEN EFFECTIVE
- ✓ SUPPORTS TELOMERE HEALTH
- ✓ COMBATS OXIDATIVE STRESS
- ✓ SUPPORTS HEALTHY LONGEVITY
- ✓ HALTS TELOMERE SHORTENING

Company: **Certified Nutraceuticals, Inc.**

MEDICAL JOURNAL PUBLISHED TELOS95[®] CLINICAL STUDY

New Human Clinical Research Unlocks the Key Elements that Cause Cellular aging; *Telomeres*, an Important Piece of the Puzzle of Human Aging.

June 18, 2019 – San Diego, California – Certified Nutraceuticals, Inc. is proud to announce the publication in *Health-Med Journal Publication* (see attached) of the positive results of the year-long human clinical research; on the new highly purified proprietary natural ingredient, “**Telos95[®]**” – the only scientifically validated ingredient for Telomere health support.

Certified Nutraceuticals (CN) continues to stay on the forefront of research and innovation and is always 3-5 years ahead of its time with new age related ingredients. Our newest invention, **Telos95[®]**, is a remarkable achievement that took several years of research and development, clinical research (in vitro) by **Life Length’s TAT** technology of Spain, and the latest human clinical study conducted by **Princeton Consumer Research**. The DNA test used in the study is “**Cawthon qPCR Assay**” to test the effectiveness of **Telos95[®]**.

Telomeres hold remarkable information about the path of our health and may provide the single most important biomarker of aging.

TeloYears is the actionable DNA health test. It lets you track your cellular age based on your telomere length. Your telomere length tells you your age in TeloYears which could be older or younger than your actual age.

Telomere lengths are reported as the age of your cells and tend to shorten and fray with age. How fast they shorten and eventually become cell senescence (a stage where cells deteriorate- nonfunctional) are all dependent on several factors including: genetics, environment, stress, diet, and lifestyle.

Telos95[®] is formulated with very powerful antioxidant polyphenols and has been clinically shown to decrease your TeloYears age by an average of 8.52 years. It decreases the time it takes to shorten telomere cellular age.

Telos95® discovery is the result of more than a decade of research initiated by Ahmad Alkayali, CN CEO and the inventor. The initial research was about SIRT2 Protein and Telomere maintenance in relation to the aging process. After experimenting with many purified natural compounds our research finally succeeded with the perfected composition of **Telos95®**, scientifically validated to **Decrease TeloYears Cellular Age by 8.52 Years**. The human clinical research was conducted by specialist on telomere testing, **Princeton Consumer Research**. In the yearlong study, eighty-three (83) subjects were screened, eighty-two (82) subjects were enrolled and fifty (50) subjects completed the study. Twenty-five (25) subjects in group A were instructed to take (1) one 95mg. **Telos95®** capsule once daily and twenty-five (25) subjects in group B took (2) two capsules once daily.

CONCLUSION

A total of fifty (50) subjects completed all aspects of the study. Group A decreased their TeloYear age on average by 7.43 years. Group B decreased their TeloYear age by 8.52 years.

This is exciting news for CN, Mr. Alkayali stated: this is the longevity breakthrough supplement of the century. The Human Study is the first of its kind to confirm efficacy on Telomere health and we are not aware of any other human study on natural supplements that exists. CN is planning to market this unique supplement worldwide. Mr. Alkayali was the first to introduce collagen supplements to the market more than a quarter of a century ago. Certified Nutraceuticals specializes in innovative quality collagen and anti-aging nutrients for longevity and good health. We developed Patented **kollaGen II-xs™**, 100% Chicken Sternum Collagen Type II, **Revers♥e-vine®** - grapevine extract antioxidant featuring the newly discovered **Trans-e-Viniferin** which is considered to have more antioxidant effects beyond resveratrol, **H.A.95™** Natural Hyaluronic acid synovial fluid to lubricate healthy joints, **Olea25®** - 25% Hydroxytyrosol powder extracted from organic olive leaf with the highest ORAC value of any botanical ingredient discovered to date, patented **TendoGuard™** - Collagen Type I, II, V, X and mucopolysaccharides for keeping tendons healthy and flexible, and our newest patent-pending and the only **Hydrolyzed Jellyfish Collagen Powder “KollaJell™” for Brain & Memory Health.**
